HOMEBOUND/HOSPITALIZED STUDENTS

Policy Code: 3132

Students who are unable to attend school for health reasons will be provided with homebound services if there is a medical statement from a physician indicating that the students will be out of school for a minimum of three weeks. If the student is requesting homebound services for a psychiatric condition, the medical form must be signed by a psychiatrist. Students who are out of school for shorter periods of time due to health reasons may have their work sent home to them. School staff will work cooperatively with students to give them opportunities to make up their work.
