PARENTAL INVOLVEMENT

The Cleveland County Board of Education (the “Board”) recognizes the critical role of parents in the education of their children and in the schools. The Board directs school administrators to develop programs that will promote and support parental involvement in student learning and achievement at school and at home and encourage successful progress toward graduation. Each parent is encouraged to learn about the educational program, the educational goals and objectives of the school system, and his or her own child’s progress. The Board also encourages parents to participate in activities designed by school personnel to involve them, such as parent conferences, in order to encourage effective communication.

The Board directs each principal or designee to develop a parental involvement plan as a part of the school improvement plan. This plan must include, at a minimum, efforts that meet the requirements established in this policy. In addition, the plan must include ways to enhance parental involvement in the following areas:

1. meaningful two-way communication between home and school;
2. promotion of responsible parenting;
3. involvement of parents and guardians in student learning;
4. promotion of volunteering;
5. involvement of parents and guardians in school decisions that affect children and families;
6. training for parents on school related topics;
7. community collaboration; and
8. promotion of student health awareness.

This policy applies to the parents, legal guardians, and legal custodians of students who are under 18 years old and are not married.

A. PARENT COMMUNICATION AND CONFERENCES

The Board encourages school personnel to have regular contact with parents for commendation as well as for notification of concerns. Principals or designees shall plan for periodic communication with parents. Teachers are responsible for scheduling conferences with parents.

The principal or designee shall provide the parent of each student in kindergarten, first, or second grade with written notification of the student’s reading progress. The notice will
be provided three times a year, following each benchmark assessment and will include: (1) assessment results, (2) whether the child may not reach reading proficiency by the end of third grade; and (3) instructional support activities for use at home.

The Board encourages the Superintendent to work with local business leaders, including the local chambers of commerce, to encourage employers to adopt as part of their stated personnel policies time for employees who are parents or guardians to attend conferences with their child’s teachers.
