The Cleveland County Board of Education (the “Board”) recognizes that the public schools are an integral part of the community and that the public has a vested interest in having students develop into productive members of the workforce and of society. The Board maintains its vision that upon graduation all students will be enlisted, employed or enrolled. The Board encourages the community to be involved in the school system and to assist the school system in the goal of providing every student with the opportunity to receive a sound basic education.

The Board affirms its intent to:
1. Inform the public of policies, programs, and planning of the school system.
2. Receive input from the community.
3. Stress academic excellence in every area through positive community involvement.

All personnel are expected to demonstrate a commitment to working with the community. Administrators will communicate to the public the goals and objectives of the schools and the progress of the schools in meeting those objectives, including the school building improvement reports required by G.S. 115C-12(9)c3.
